About Me

I am a computer science student with a keen interest in studying artificial intelligence and machine learning. I am passionate about computer mathematics and committed to learning and understanding complex algorithms. My goal is to contribute to the development of innovative and modern methods in this field. Throughout my academic and professional journey, I have gathered various experiences. I am an applications and backend developer and have designed and developed many mobile applications. Additionally, I have worked as a designer using Adobe programs and served as a correspondent for the International Symposium for Islamic Youth.. Currently, I am focusing on integrating mobile application development with high-performance artificial intelligence models to advance medical applications. I am particularly interested in connecting these applications to devices, including those implanted in the human body, to enhance healthcare outcomes through artificial intelligence. My research explores how AI can be utilized for real-time monitoring , anticipation, data processing and control, both at a personal level via smartphones and from a broader health management perspective.

Education

Ibb University ,College Of Science.

Computer Science SEP 2023 - PRESENT | Al Dhahar, Ibb

General Institute of Communications .

Diploma International Computer Driving License | 24 SEP 2022- 03 SEP 2022 | Al mashanah , Ibb | %95.86

Al Nahdah Secondary School.

High school | OCT 2022- SEP2019 | Al Dhahar, Ibb | %90.25

Omar Al-Mukhtar Center for the Memorization of the Holy Quran / The Charitable Society for Teaching the Holy Quran .

Memorizing 15 parts of the Holy Quran | SEP 2019 - OCT 2020 | Al Dhahar, Ibb | %88

Experience

Al-Sharka city for smart phones and mobile services.

cashier |05 JUN 2022 - 01 NOV 2022 | Al Dhahar, Ibb 12 hours a day

Al-Imam Al-Kassai Association, Orphans Section.

Data entry, auditor and statistician | 01 MAY 2020 - 05 MAY 2021 | Al Dhahar, Ibb 3 hours a day

Skills

I can drive cars and small boats

I am good at using design programs (Adobe programs).

I am good at using accounting software, and I have worked on the systems of Ebdaa Soft Company and Yemen Soft Company.

I have sweet voice in chanting and I can stand in front of the audience.

IT Skills

Illustrator

PS & ID

HTML5

CSS3

UI && UX

DataBases

Flutter FrameWork

Dart Language

C++ Language

PHP Language

Languages

Arabic

English

Turkish

Projects

I Created Comprehensive Database That Includes Orphan Data In The Association And Generates Reports.

I Designed All Advertisements, Send Reports To Supporters And Distributed Dues To orphans In The Association During My Work Period.

Create a medical records application using the Flutter framework.

I created a calculator application with all numerical systems as well as its belongings and accessories using the Flutter framework.

I created an alarm clock app with a timer and stopwatch using the Flutter framework.

I made a simple messaging application using the Flutter framework.

Hobbies and Interests

1- Robotics Development.

2- Programming and Development.

3- Artificial Intelligence (AI) Development.

4- Music or Playing an Instrument.

5- Reading and Continuous Learning.

6- Watching Anime.

7- Traveling and Exploring Cultures.

8- Exploration and Discovery.

9- Poetry.

10- Writing and Attempting to Write Books.

11- Volunteering and Charity Work.
